Some notes about the schedule.

- At this point it is pretty much what it is going to be. I do not anticipate many changes
- The boys should keep the weekend of Sept 18th open, as we are trying to come up with a trip somewhere
- We will need workers at the meets on Sept 21st and 22nd
- With the size of our team we will more than likely be able to race all in one race at each meet
- Since the state meet is at Bourbon County, we will more than likely drive down that morning opposed to staying in a hotel that night, but that is TBD.
